PROFESSIONAL SUMMARY

Computer Science undergraduate focused on building scalable full-stack applications using React, Node.js, Python, and cloud technologies. 2x Finalist at IEEE YESIST and winner of Google Solution Challenge for developing IOT based AI-driven and real-world smart infrastructure solutions.

EDUCATION

2022 – 2026

Bachelor of Engineering in Computer Science & Engineering

Model Institute of Engineering and Technology (MIET), Jammu

PROJECTS & TECHNICAL EXPERIENCE

Aasra Sewa — Disaster Relief Management Platform

IEEE YESIST 12 Malaysia Grand Finalist | Patented Project Idea

- Developed a scalable disaster response platform enabling real-time aid, tracking emergency coordination, and IoT-based smart-band integration for vulnerable communities.

Tech: React, Python, MongoDB, SQL, IoT, Google Maps API

Sahayatri — Real Time Smart Indoor Railway Navigation System

Google Solution Challenge Winner

- Built an AI-assisted railway navigation and crowd monitoring platform using OpenCV and Google Maps API to optimize passenger movement and emergency response workflows.

Tech: React, Python, OpenCV, Google Maps API, MongoDB

NamoArogya — AYUSH Integrated Digital Healthcare Platform

Smart India Hackathon 2025 | Proposed for AYUSH-Modern Healthcare Interoperability

- Designed a scalable healthcare interoperability platform integrating ICD-11 with EMR/EHR systems through secure APIs and microservice-based architecture.

Tech: APIs, Microservices, FHIR Standards, React, MongoDB

TECHNICAL SKILLS

Frontend: React.js, HTML, CSS, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, SQL, Firebase

Programming Languages: Python, C++, JavaScript

Tools & Platforms: Git/GitHub, Docker, Linux, VS Code, Google Maps API

Core Concepts: Full Stack Development, API Integration, Microservices, Scalable System Design

ACHIEVEMENTS

- 2x Finalist at IEEE YESIST 12 [2024 (Tunisia) & 2025 (Malaysia)] among 30+ countries globally.
- Winner of Google Solution Challenge Internal Hackathon 2025 for AI-driven railway navigation platform
- Ranked 5th internationally at IEEE YESIST 12 (Malaysia) for Aasra Sewa
- Patent Granted for Aasra Sewa Disaster Relief Platform
- Winner at an IEEE International Conference for innovation-driven project development
